

## **Fine Art Prints by Elke Rehder on the topic Chess**

The Lithography is a printing process in which Elke Rehder uses a stone with a completely smooth surface. Elke Rehder uses this technique not only to illustrate her artists' books, but also for her graphic prints, such as "*Opening Move*" and "*Three Pawns*"

*Opening Move - Lithograph, hand-colored, numbered and signed by the artist  
Elke Rehder*

*Three Pawns - Lithograph numbered and signed by the artist Elke Rehder*

## **Serigraphs by Elke Rehder**

The serigraph is also known as silkscreen or screen printing. The chess squares on the prints "Blue Dancer Chess" and "Red Dancer Chess" are hand painted with acrylic color. The Serigraphs "Knight takes Rook" are in different variants. All graphic prints are printed by hand and numbered and signed by the artist.

Elke Rehder used this printing technique from 1990 to 1999 for her colorful large posters like "Blue Dancer Chess" or the chess prints "Knight takes Rook"

*Blue Dancer Chess - Serigraph with acrylic paint by Elke Rehder*

*Red Dancer Chess - Serigraph with acrylic paint by Elke Rehder*

*Chess - Knight takes Rook - Serigraph by Elke Rehder*

*Chess - Knight takes Rook - Serigraph in variation blue, black, yellow by Elke Rehder*

*Chess - Knight takes Rook - Serigraph in variation blue, green, red by Elke Rehder*

*Chess - Knight takes Rook - variant in dark blue by Elke Rehder*
